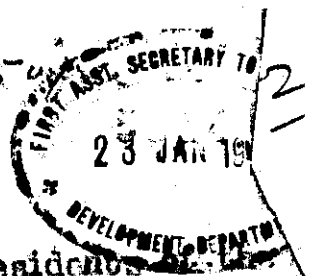
G.O. No. 1293 Ext 33

Dated 26. 4. 1946

[Despatch Abstract.]

Leprosy - St.Joseph's Leper Asylum, Kankanady
Acquisition of land - Papers recorded.

To The Collector of South Kanara,
Mangalore.



Humble petition of the residents of the
Kankanady and the neighbouring Villages.

Respectfully Sheweth -

That Your Honour's petitioners are the residents of the Kankanady and other neighbouring villages, who are very much aggrieved by the authorities of the Father Mullder's Hospital, with regard to their activities and their work pertaining to the Leper Asylum.

That the said Asylum 'the Damian Home' has been built close to a stream and the authorities freely make use of the stream as a place for throwing off all the rubbish and filth including bandages, lint, etc. used for ulcers and gangrenes of the lepers. The result is that it becomes not only a place of intolerable smell making the lives of the residents miserable, but is likely to contaminate the entire atmosphere which is likely to spread this dangerous and contagious disease.

The petitioners, now learn with a great deal of alarm that they are going to extend the building for the lepers and that the Government is going to help them by not only granting Government land, but by acquiring private land. If this information is correct, the undersigned petitioners have very great reasons to vehemently oppose this kind of help by the Government to the detriment of the public tax payers.

It may not be out of place here to

in the case of a few lepers the said Asylum serves only as a repose for the night. These lepers are sent out early in the morning and till sunset they are really a source of nuisance and annoyance to the inmates of several of the neighbouring houses as they go from house to house abegging, exposing their gangranes and their affected bodies. This is a ghastly and a usual sight for the neighbours to see because of the existence of this Asylum.

To the undersigned petitioners most respectfully pray that immediate steps may be taken to -

1. prevent the authorities from throwing off the direct mentioned above and contaminating the entire neighbourhood

2. to let out the lepers from the Asylum to stray about abegging and causing annoyance to the neighbouring people

3. It is also prayed that neither the Municipality nor the Government should permit the existence or the expansion of such an institution in such a locality where the population is increasing day by day. The petitioners beg to suggest that it is high time for the Municipality and the Government to order the shifting of the said Asylum to some remote and less objectionable place beyond the Municipal limits.

For which act of kindness by duty bound we shall ever pray.

Bangalore, 21 - 1-1946.

South Kanara Collector's Office,
Mangalore, dated 12-6-1946.

From
Sri Rao Bahadur P. Ramdoss, B.A.
Collector of South Kanara.

To
The Secretary to the Government, Education and Public Health, Department
Madras.

Through.

The Surgeon General with the Government
of Madras, Madras.

Sir,

PUBLIC HEALTH - Mangalore Taluk and Town - Kankanady village - St. Joseph's Leper Asylum and Damian House - Throwing of refuse etc. in public drains etc. - Petition from residents - Remarks submitted.

Ref: From Government Education and Public Health Department Memo.No.496

The residents of Kankanady village, Mangalore Town represent. pp 3-4 note

(1) that the Leper Asylum known as the 'Damian House' has been built close to a stream and the hospital authorities freely make use of the stream for throwing into it all the rubbish and filth including the bandages lint, etc. used for ulcers and gangrenes of the Lepers with the result that the place not only becomes intolerable by the foul smell but also contaminates the entire atmosphere.

(2) that the said Asylum serves as a resting place for the Lepers only a night and that they are sent out in the morning after which they go on begging for their livelihood till sunset which is not desirable.

and (3) that the Leper Asylum should be shifted to some remote and less objectionable place beyond the Municipal limits and the proposed Acquisition of land for the expansion of the hospital should be dropped.

Point (1) above: The Municipal Health Officer, Mangalore and the Asst. Civil Officer, Mangalore on a personal inspection of the locality report that the surroundings of the Damian House were kept clean and that in the channel referred to in the petition no soiled dressing were found. The channel is however close to the Damian House and is also being used as a pathway. Though no rubbish was found in the channel there is scope for its misuse.

Point (2) above: St. Joseph's Leper Asylum at Kankanady is a residential hospital for Lepers. But in the Compound of this institution, a building entitled the 'Damian House' has been constructed and it is under the management of Rev. Fr. W. Coelho S.J. The Municipal Health Officer, Mangalore reports that this House shelters early cases of Leprosy till accommodation is available in the Leper Asylum. The Leper Asylum at present accommodates about 150 patients and when the treatment gives some relief, such patients have to vacate their beds for worse cases with the result that most of the patients who are poor and helpless are compelled to live by begging. He also reports that the hospital authorities made him understand that the movement of the patients are restricted and only in emergencies they are let out to their relatives. But as their number is large it is difficult to control

P.T.O.

them effectively in an institution of this kind.

Point (b) above: The Director of the Leper Asylum, applied for the acquisition of certain lands adjoining the said Asylum for the purpose of reconstructing it. I have inspected the place and consider that for the reasons given in my proceedings D.Dis. 18775-45 dated 12-3-46 (copy enclosed) the proposed acquisition of lands is not desirable. I have accordingly dropped the proceedings.

2. The petition dated 21-1-46 from the residents of Kankanady Village received with the Government Memo cited above is enclosed.

D.Dis.8775-45.

Proceedings of the Collector of South Kanara, dated 12-3-46.
Rao Bahadur Sri P. Ramadoss, B.A.

***

LAND ACQUISITION - Mangalore Taluk and Town - Kankanady Village - T.S.Nos.18/9,10,16/1,2,6 A and 95/2 - For St. Joseph's Leper Asylum, Kankanady - Proposal -Orders passed.

...

Read: D.Dis. 2974-45 dated 30-6-45.
(2) From Rev. Reginald Pinto, Director, St. Joseph's Leper Asylum, Kankanady, Petition dated 28-7-45
(3) From the Surgeon General with the Government of Madras R.No. 50966-B-46 dated 22-11-45.
(4) From the Revenue Divisional Officer, Mangalore Ref.C.No.5121-B-45 dated 2-3-46.

**

The Director, St. Joseph's Leper Asylum, Kankanady, requests for the acquisition of certain lands in Kankanady Village for the purpose of reconstructing the Leper Asylum. The Surgeon General to the Government of Madras, who was consulted in the matter recommends the acquisition of T.S.Nos. 18/9,10,16/1,2,6A and 95/2 of Kankanady Village for the said purpose.

2/- I have thoroughly inspected the lands proposed for acquisition. I find that in an expanding town like Mangalore with all its prolific growth of population, industry and other enterprises, a Leper Colony in the heart of it is not desirable. The Hospital authorities are however against having a separate lepery colony at some distance from the town. Not-withstanding all expert opinion, Leprosy is to the common man a loathesome disease and therefore the public would like to avoid all sights and contacts of such men- a necessary change in these days of improved sanitation and public health. The most desirable course in the circumstances would be to have a Leper Colony at some distance from the town. If this is not feasible, the institution has 6.10 acres of wet, 1.77 acres of garden and 6 acres of dry lands at its disposal to the East and South East of the existing Asylum. The block of 6 acres of dry land can be built upon, if need be, for the purpose of reconstructing the Asylum . The contention of the Director of the Asylum that the lands are mainly wet lands and steep slopes and that they will be required for providing occupation and work which is one of the

P.T.O.

main features of reconstruction cannot be accepted as there are also dry lands which can certainly be built upon. He is evidently trying to retain his lands intact and get more lands by means of acquisition in the face of the public objections.

3/- I consider that in these circumstances the proposal to acquire fresh lands is unnecessary and not maintainable. It is accordingly dropped.

K Ghulam Mohd

For Collector.

To the Director,
St. Joseph's Leper Asylum, Kankanady P.O. Mangalore. G1 14/3
To the Surgeon-General, with the Government of Madras, Madras.
To the Revenue Divisional Officer Mangalore.

E.P.H. 19

Kankanady, 19th March 1946.

From

Rev. Reginald Pinto,
Director,
St. Joseph's Leprosy Hospital and Asylum,
Kankanady, S.India.

To

E.H.Gawne Esq., C.I.E., I.C.S.,
Advisor to His Excellency
the Governor of Madras,
M A D R A S.

Dear Mr. Gawne:

pp.23-27 infra

I am enclosing herein a copy of my letter to the Surgeon-General with the Government of Madras requesting him to reconsider my petition for acquisition of land for our Leprosy Hospital and Asylum, the proceedings of which have been dropped as per orders of the Collector dated 30-6-'45 and 12-3-'46 - copies enclosed.

p.21 infra p.29 infra

A 1 The question of overcrowding and congestion in the Leprosy Hospital and Asylum and the necessity to separate the Female and Male Blocks makes me to ask Government to reconsider the question again. I feel that the land asked for is quite -- necessary for reasons already stated and that it is not objectionable to the people; even if the land is given to us it will not prevent Government from having its own post-war ~~xx~~ x schemes. On the other hand our Leprosy Hospital will be useful in the -- campaign against this disease in our District.

Our aim in this matter is to make the conditions for the treatment of patients of leprosy uptodate and in keeping with the idea of providing the patients as much outdoor life and -- exercise as far as possible.

As one; who has been much interested on this question as our Collector and also been good enough to inspect these lands during your office as the Hon'ble Member of the Board of Revenue, I thought it to be my duty to keep you informed in the matter. I am sorry I have to encroach upon your valuable time.

I learn that you are visiting Mangalore towards the end of this month and I would be very grateful if you would give me an interview at that time.

Thanking you for your kindness and help towards our Institutions,

p.21 infra Yours sincerely,

Reg. Pinto

Rev.S
25/3/46

A 4 (A in the next page seems wrong to me.)
I saw the area when I was last in Mangalore as Board member. This is in the outskirts of the town and there seemed to be only one or two outlying cottages here. How can it be a "thickly populated locality"?

D.DIS.2974-45

Proceedings of the Collector of South Kanara, dated 30
Sri Rao Bahadur P.Ramadoss, B.A.

Land Acquisition - Mangalore Taluk and Town- Certain lands for extensions of Leper Asylum - application from the Director, St. -- Joseph's Leper Asylum, Kankanady - orders passed.

Read : Application dated 8-3-'45 from the Director, St. Joseph's Leper Asylum, Kankanady.
N.Dis.4600-45 dated 26-6-45 from the Tahsildar, Mangalore
N.Dis.1040-45 dated28-6-45 from the R.D.O. Mangalore.

The Director, St. Joseph's Leper Asylum, Kankanady applies for the acquisition of lands comprised in S.Nos.13/1C,12/5A to 5E, 12/4A to 4G, 16/6A to 6D, 2,1, 95/1,2,4 and 6, 15/1 to 4 and 18/9 and 10 of Kankanady for extending the Leper Asylum. Enquiry shows that the plots proposed to be acquired are situated in a thickly populated locality in this town. There is strong objection from the -- public to the proposed acquisition on the ground that the persons occupying the houses and that the location of a leper asylum amidst residential houses is highly undesirable in public interests. -- These objections are really substantial and deserve careful consideration. The request of the Rev. Director of St. Joseph's Leper Asylum cannot therefore be complied with. He may, however, select some other site in an unobjectionable locality and then apply for the acquisition.

(By order)

Copy.

Kankanady, 19th March 1946.

From

Rev. Reginald Pinto,
Director,
St. Joseph's Leprosy Hospital and Asylum,
Kankanady, S.India.

To

The Surgeon-General with the
Government of Madras,
M A D R A S.

Sir:

Land aquisition - Ref. Application from Rev. Reginald Pinto, Director, St. Joseph's Leper Asylum, Kankanady, letter dated 22-11-45 from the Surgeon-General with the Govt. of Madras, - proceedings of the Collector of S.Kanara dated 12-3-'46. — Ar 17-18 ante

not in the file —

We regret to say that the acquisition proceedings recommended in your letter dated 22-11-'45 to the Collector of South Kanara have been dropped as per proceedings of the Collector dated 12-3-'46 -(this order has been communicated also to you) and wish to place before you the following for your kind consideration.

That the main reasons as stated in our petitions dated 8-3-'45 and 7-9-'45 for the reconstuction of this Leprosy Hospital and Asylum were:-

1. the over-crowding and the congestion in the Leprosy Asylum which was acute and is daily becoming worse as the figures given below clearly show -

Year	No. of new patients admitted during the year	No. of patients discharged during the year	Daily average of patients in the Asylum.
1936	60	49	99.43
1937	73	56	108.79
1938	55	57	105.89
1939	74	60	108.31
1940	70	53	113.44
1941	105	101	118.81
1942	134	134	120.9
1943	161	142	129.88
1944	147	146	139.79
1945	137	119	125.78

and the present strength is 160. With the greatly increased growth of the town and its population there is even greater need for accommodation as is clearly shown by the number of patients seeking admission. As the St. Joseph's Leprosy Hospital and Asylum is the only one in the District, our difficulty is very great and we have to point out that the overcrowding and congestion is ---- detrimental to the health and treatment of the patients.

2. that the male and female blocks are too close to each other and the need for having them at a reasonable distance which was great in 1929 is found to be very urgent now.

3. the need for provision for a block for infectious diseases is urgent. There were 34 cases of small-pox in the Asylum in 1944 and there were 4 deaths. A separate block at some reasonable distance from the main hospitals is another necessity.

4. it is quite necessary to provide the necessary ground for exercise - open air life and recreation which is essential and which is a part of the treatment itself and we consider that this should be provided by all means.

.e beg to point out that we have no objection to a Colony for these patients being built anywhere outside the town all that we have stated and wish to clearly state again is that it is not possible for us to start a new one far from the Town. .e were not aware and we are not aware yet, any post-war plans of Government on this matter and we have definitely assured you that our scheme does not in any way go against it; on the other hand it will help the Government till such time as Government is able to start its own schemes. The Director of Leprosy Campaign agrees in this view.

.e would like to point out that the land of 6 acres referred to in the proceedings of the Collector in our possession and which he considers suitable and enough for the purpose of reconstruction has been earmarked for definite purposes. In this connection we wish to point out that seeing the growth of these -- Institutions which started ~~in~~ with a small building in 1880 to -- house about 20 patients for general diseases to its present condition with separate hospitals for male and female patients for -- general diseases with accommodation for about 40 beds in each, the addition of a first class out-patients' department, the erection of a decent building ~~put~~ for the plague epidemic, the addition of a maternity hospital and X-Ray department and the reconstruction and addition to buildings for the leprsoy hospital and asylum itself on three different occasions, the authorities have from time to time bought at great cost private property adjoining the institutions with the sole idea of expansion with a view to meet the demand for more and more accommodation and this area of 6 acres will be used solely for the purposes of the expansion of the hospitals including the leprosy hospital. All the land that is suitable and useful for this scheme from this block will be made available for use of the leprosy patients; we have already donated one acre upon which the Damien Home for burntout cases now stands; in fact we have ourselvesbought by private negotiations a number of plots contiguous to the present leprosy hospital in order -

1. to make it available for use of these patients;
2. to see that the people around can have no reason whatsoever for complaint;
3. to make it a compact block so that the segregation may become more complete,
4. that we may have a separate access to this block to be used by these patients alone.

As regards the public objection we beg to state that our revised plan excludes most of the residential areas in the -- acquisition plots asked for.

2. That we have only asked for the land that has not been built upon

3. That most of the land asked for by us is not needed by the owner as it has been alienated on permanent lease. ~~in~~ to others

In conclusion we beg to submit that since the start of this Asylum in 1880 viz. for the last 66 years we have been trying to alleivate the sufferings from this disease and that since 1927 we have made it a centre for the most modern treatment for -- leprsoy in this District and that we have sent out our Doctor for special training on this subject twice and that the numbers admitted have been steadily rising from about 40 to the present strength of 160 against a sanctioned strength (accommodation) of 92 beds, and that we had in 1929 requested Government to build a separate female block which was approved by Government but turned down for want of funds and that during war time we have not refused any admission to any patients in spite of severe congestion and that it is very -- difficult to accommodate any more patients. .e therefore wish to state that it is quite necessary now to relieve the acute congestion in our leprosy hospital and asylum and to separate the ~~an~~ male and female blocks.

We consider that this land asked for by us to reconstruct the Leprosy Hospital and Asylum is both necessary and not objectionable; that the demand for admission in the hospital is increasing and has to be met; that the question of increasing the accommodation has been approved by all the authorities and has been specially recommended by the President of the Leprsoy Council (the Collector) and that therefore Government may be pleased to consider this question, as we feel that the facilities for the modern treatment of leprosy in our District should be increased and trust -- Government will reconsider our request for acquisition. We shall remain grateful and try to assure of our wholehearted co-operation.

I have the honour to be,
Sir,
Your most obedient servant,

DIRECTOR
St. Joseph's Leprosy Hospital and
Asylum, Kankanady, S.India.

D.Dis.8775-45 Engrd at pp 17-18 and 29

Proceedings of the Collector of South Kanara, dated 12-3-'46, Rao Bahadur Sri P.Ramadoss, B.A.

LAND ACQUISITION - Mangalore Taluk and Town - Kankanady Village - T.S.Nos. 18/9,10,16/1,2,6A and 95/2 - for St. Joseph's Leper Asylum, Kankanady - Proposal - Orders passed.

Read: D.Dis. 2974-45 dated 30-6-45.
(2) From Rev. Reginald Pinto, Director, St. Joseph's Leper Asylum, Kankanady, Petition dated 28-7-45
(3) From the Surgeon-General with the Government of Madras R.No.50966-B-46 dated 22-11-45.
(4) From the Revenue Divisional Officer, Mangalore Ref.C.No.5121-B¾45 dated 2-3-46.

The Director, St. Joseph's Leper Asylum, Kankanady, requests for the acquisition of certain lands in Kankanady village for the purpose of reconstructing the Leper Asylum. The Surgeon-General to the Government of Madras, who was consulted in the matter --- recommends the acquisition of T.S.Nos.18/9,10,16/1,2,6A and 95/2 of Kankanady village for the said purpose.

2. I have thoroughly inspected the lands proposed for acquisition. I find that in an expanding town like Mangalore with all its prolific growth of population, industry and other enterprises, a Leper Colony in the heart of it is not desirable. The Hospital authorities are however against having a separate leper colony at distance from the town. Not-withstanding all expert opinion, the public would like to avoid all sights and contacts of such men - a necessary change in these days of improved sanitation and public health. The most desirable course in the circumstances would be to have a leper colony at some distance from the town. If this is not feasible, the institution has 6.10 acres of wet, 1.77 acres of garden and 6 acres of dry lands at its disposal to the East and South East of the existing Asylum. The block of 6 acres of dry land can be built upon, if need be, for the purpose of reconstructing the Asylum. The contention of the Director of the Asylum that the lands are mainly wet lands and steep slopes and that they will be required for providing occupation and work which is one of the main features of reconstruction cannot be accepted as there are also dry lands which can certainly be built upon. He is evidently trying to retain his lands intact and get more lands by means of acquisition in the face of the public objections.

3. I consider that in ~~xiew~~ these circumstances the proposal to acquire fresh lands is unneeessary and not maintainable. It is accordingly dropped.

Sd. K.Ghulam Mohamad
for Collector

33

D.O. South Kanara Collector's Office,
Mangalore, dated 8th April 1946.

DEPUTY SECRETARY TO GOVERNMENT
10 APR 1946
FINANCE DEPARTMENT

Dear Mr. [illegible]ey,

Acquisition of Land for the St. Joseph's Lepers Asylum at Kankanady.

Ref: No.4969-G2/46-2 R.H. dated 1st April 1946.

ASST. SECRETARY TO GOVERNMENT
1995
11 APR 1946
EDUCATION AND PUBLIC HEALTH DEPARTMENT

I have gone round the block to be acquired. I enclose a topo plan of the locality. The block to be acquired is shown yellow with red border. The houses on the land immediately adjoining the block are shown in the sketch. The houses farther away are not shown as they are not necessary. I believe the sketch will give a clear idea of the locality to Adviser III.

There are houses on the West and the South. There are a number of houses in S. Nos. 89/1, 11 and 12/5. There is a fairly big bungalow in S. No. 95/4. Most of these houses are of comparatively recent growth. There are also a few shops in the road to the south of S.No.11. These houses certainly give one the impression that the block to be acquired adjoins a developing area with a number of dwelling houses. The condition is different on the north and east where there are only paddy fields and outlying cottages here and there.

Among the owners of the houses in the adjoining built up area there is much opposition to the extension of the Leper Asylum towards their houses. The objection is of course from the layman's point of view. With reference to this objection Mr. Ramadoss had consulted the Municipal Health Officer, Mangalore. I enclose a copy of the

34

pp 35-36 infra

Health Officer's opinion dated 6th Febry. 1946.

S. No. 95/2 is practically a hillock now, but if the hospital takes it up a number of buildings may be put up there. In Chevayur (Calicut) there is a leper hospital and there is a long standing complaint there that patients come out and frequent the neighbouring bazaars and tea-shops. It will be difficult to prevent that sort of thing happening here also.

On the whole, I consider that the objection raised is not unreasonable and should be respected.

Yours sincerely,

To

C. O. Cooray, Esq, M.B.F., I.C.S.,
Deputy Secretary to Government,
Fort St. George, Madras.

(K.Rama Varma Raja).

X There are two leper asylums in Chevayur which are in receipt of maintenance grant from the Govt.

11/6/46

N. Dis. 229/46.

Retransmitted to the Collector of South Kanara, Mangalore.

2. Inspected the premises of the Father Muller's Hospital, the Leper Asylum, the Damian House on 28th January and interviewed the complainants on 31-1-46.

3. I was given to understand that the Damian House is situated on the site belonging to the hospital but managed entirely by another authority. When I went for inspection there were about 7 patients out of whom two were having the dressings and they go to the Asylum which is about two furlongs from Damian House for their dressings. The remaining people are not having any ulcers and I was given to understand that early cases will be given shelter there. The surroundings of this house were kept clean and in the stream referred to in the petition no solid dressings are to be found.

4. Inspected the site proposed to be alienated to the institution. There are at present five private houses on this land and the rest is vacant. The construction of further buildings on this site to accommodate the leper patients in numbers may be loathsome to the surrounding inhabitants. I was given to understand that the hospital authorities own a stretch of land about 6 acres in extent in continuation of the existing asylum and abutting the Buntwal road.

5. As the disease is a life long one and treatment gives some relief, those that had relief must give place to worse cases, by vacating their beds and naturally as most of the patients are poor

devoid of transit charges probably they have to start the struggle for existence by begging . The Leper Asylum at present accommodate about 150 inpatients and daily a number of patients come for out-patient treatment and a number will be waiting for admission as the accommodation is limited.

6. The authorities made me to understand that the movements of the patients are restricted and in emergencies the patients are let out by a pass to see their relatives. But as the number is more it may be very difficult to control their movement. The dressings of the leper asylum are thrown into deep pits and burnt frequently.

7. If the institution is to be extended to accommodate more lepers, I suggest that these poor people be accommodated in an asylum surrounded by vast land, about 50 acres in extent away from congested localities and the less severe cases may be given a vocation in the form of gardening, cultivation and other minor crafts and the severe and worst cases be hospitalised till death if possible.

Sd/ M. Vallabha Rao,
6/2/46.
Municipal Health Officer.

Put up papers.

J. B. B. 23.3.46.

Please see the petition from the residents of the Kankanady and the neighbouring villages (South Kanara district) on pp. 1 and 2 c.f. and the remarks of the Collector of South Kanara on pp.5-6 c.f.

2. In March 1945, the Director, St.Joseph's Leprosy Hospital, and Asylum, Kankanady, had applied for the acquisition of lands comprised in S.No.13/1c, 12/5A to 5E, 12/4A to 4G, 16/6A to 6D, 2, 1, 95/1, 2, 4 and 6, 15/1 to 4 and 18/9 and 10 of Kankanady village for expanding the leper asylum. The Collector of South Kanara, in his proceedings D.Dis.297/45, dated 30-6-1945, refused to comply with the request of the Director of the Leper Asylum on the grounds that enquiry showed that the plots proposed to be acquired are situated in a thickly populated locality in the town and that there was strong opposition from the public to the proposed acquisition. The Collector also informed the Director that he might select some other site in an unobjectionable locality and then apply for the acquisition. In July 1945, the Director of the Asylum had renewed his request and applied for the acquisition of only T.S.Nos.18/9,10, 16/1, 2, 6A and 95/2 of Kankanady village omitting the other plots mentioned in his previous application. After inspecting the lands proposed for acquisition, the Collector of South Kanara, in his D.Dis.8775-45 dated 12-3-46 dropped acquisition proceedings as he considered that the proposal to acquire fresh lands for the Leper

'X' on p.21 c.f.
p.21 c.f.
A on p.21 C.f.
p.21 Cf
p.29 c.f. - A'
p.29 c.f.

ylum was unnecessary and unmaintainable. He has also stated
at the expansion of a Leper Colony in the heart of a growing town
ke Mangalore is undesirable and that, if it is not possible to
ift the colony away from the outskirts of the town, the institu-
on can use the 6 acres of dry land at its disposal to the east
d south-east of the existing Asylum for the purpose of re-cons-
ucting the Asylum.

3. The copy of the petition from the residents of the
addressed
nkanady and the neighbouring villages on pp.1 & 2 c.f./ to the Collector
South Kanara had been sent to the Collector before he passed
ders in his proceedings dated 12-3-46. No action seems there-
re necessary on this petition.

4. The Director of the Asylum now requests that,
r the reasons stated by him on p.19 c.f. and in his letter to
e Surgeon-General on pp.23-27 c.f. the Government may reconsider
e decision of the Collector of South Kanara dropping the acqui-
tion of lands for the Asylum.

5. With reference to the minute of A3 at 'M' on p.1
te, it is submitted that the Director of the Asylum originally
plied for certain plots of lands which were omitted in his
bsequent application dated 28-7-45. Apparently the remarks of
e Collector at A on page 21 c.f. relate to the plots which
ere originally applied for.

6. The file may be circulated to ~~A3 through A1~~ A1 and A3

The S. G. has merely forwarded the collector's report (page 6 of) With reference to A3's minute at page 4 ante it is for orders whether the S. G. may be asked to instruct the D.M.O. to discuss the matter with the collector. The file may be circulated after receipt of reply from S. G.

Ds / A4 / A3

I don't think the Govt should be acquired. There is much opposition & it does not seem really necessary.

12/4 12/4/46

I think probably we ought to take them but not cancel one to another place and keep the present hospital for treatment only. It is true that if this extension is carried out there will be great difficulty in control. But on account that no leper is brought to segregate himself if he does not wish to.

from dist M P H (Amendment) it is not extended to this area
